Best Aspects	Needs Improvement
<p>Everything. Engaging content. He explains things well. [teacher] was always well prepared and knew the subject well. It was interesting to discuss world affairs with him.</p> <p>The most valuable aspect of this staff members teaching that was valuable to my overall learning experience had to be that he was always prepared and organised in what he was presenting.</p> <p>[teacher] was a great teacher and he truly helped when it came to assignments by doing mind maps with us in class. This helped me greatly in all my assignments [teacher's] made it a lot easier for me.</p> <p>[teacher] was very helpful throughout all of the tutorials and always explained theories and examples in depth. As well as this he was always very approachable and created a good learning environment.</p>	<p>Nothing everything is good. Nothing he is a great teacher. I believe [teacher] needs to engage more with the students. When [teacher] is taking to us, he consistently says phrases such as; like, um, kind of, and kind of like. Etc. He is a really good teacher, which a lot of knowledge on the unit, but when he throws these in when explaining a certain thing, it feels as if he does not know what the unit is about.</p>
