9.	What did you particularly like in this subject?	4	Open question	44.44

- 9.1 I like how this semester continues from the first and the projects build upon each other. Nick has been able to make these projects seem less intimidating than they are. The feedback received for my assignments have been so detailed and constructive. This semester has been less stressful thanks to the guidance provided by Nick
- 9.2 I enjoyed researching a topic that I chose, and the way that the assignments have built up to the final research project. Every issue in Chile would be difficult to grasp quickly and having the time to research it in different ways, i.e. the literature review and the methodology meant that we could take the time to fully understand our chosen topic.
- 9.3 The help and guidance from Nick Mangas is exceptional. His responses are very quick and informative. He is very understanding, and the extensions given this semester to ICS students in chile and Argentina were greatly appreciated. Without the guidance of Nick, I would have been significantly more stressed out and most likely would not have done as well as I have done so far.
- 9.4 The assignments are beneficial to my year abroad in the sense that they have forced me to further engage with the culture in aspects that I wouldn't otherwise.
Nick has been especially helpful throughout the year with detailed feedback.
